

Wet-Able[®]

HIGH SURFACTANT powered by
“Trans-Sieve & Protection Technology”

- Enhances the efficacy of agricultural crop protection products, nutrients, plant growth regulators and defoliants.
- Encapsulates herbicides, insecticides or fungicides from UV decomposition, lengthening the window of time for incorporation as well as the film forming properties and persistence on foliage lengthening the residual benefit

Opposition and Glyphosate

Wet-Able™ & Albit and Glyphosate
